C1 Peer Review 4 User Stories

US ID #	USER STORY
Basics	
1	As an owner, I want to add a thing to my things. Each thing is created with title, maker, description, and dimensions (Length x Width x Height).
2	As an owner, I want to view one of my things, its title, maker, description, dimensions and status and if it is being borrowed, the borrower.
3	As an owner, I want to edit a thing in my things.
4	As an owner, I want to delete a thing in my things.
Lists	
5	As an owner, I want to view a list of **all** my things, each with their title, description, and status.
6	As an owner, I want to view a list of all my things that are **available**, each with their title and description.
7	As an owner, I want to view a list of my things being **borrowed**, each with their title and description.
Photographs	
8	As an owner, I want to optionally attach a photograph to a thing of mine.
9	As an owner, I want to view any attached photograph for a thing.
10	As an owner, I want to delete any attached photograph for a thing of mine.
Borrowing	
11	As an owner, I want a thing to have a status of one of: "Available" or "Borrowed": I want to set a borrowed thing to be available when it is returned.
Contacts	
12	As an owner, I want to add a borrower contact to my contacts
13	As an owner, I want to be able to edit a borrower in my contacts if that borrower is not currently borrowing an item.
14	As an owner, I want to be able to delete a borrower in my contacts if that borrower is not currently borrowing an item.

Glossary

user: a person who uses or operates the app. Users are owners.

owner: a user who owns the item.

contact: Each contact has an email and a unique username associated with them. Owners add contacts to their contact list. Owners can edit/delete contacts from their contact list. A contact is a potential borrower.

contacts (user list): a list of all contacts an owner has added into the app. These contacts are all potential borrowers.

borrower: a contact that borrows an item and eventually returns it to the item's owner.

item: an object that is owned by the owner and may be borrowed by a contact in the owner's contact list.

item status: the current state of the item, which defaults to "Available" and can be changed at any time by the owner. When an item is borrowed, the owner changes the item's status to "Borrowed", and when the item is returned, the owner changes the status back to "Available".

available: the item is not currently being borrowed, so it is available to be borrowed.

borrowed: the item is currently borrowed one of the owner's contacts -- a borrower.

item list: a list of items the owner currently has listed, possibly filtered by some condition, i.e. "Available", or "Borrowed".

username: a unique sequence of characters that identifies a contact.

item title: the title of the item.

item maker: the manufacturer, brand or creator of the item.

item description: a brief description of the item. Could be a list of keywords or a sentence.

item dimensions: the length, width and height of the item in cm.
